DNAKE Smart Life Intercom Solution

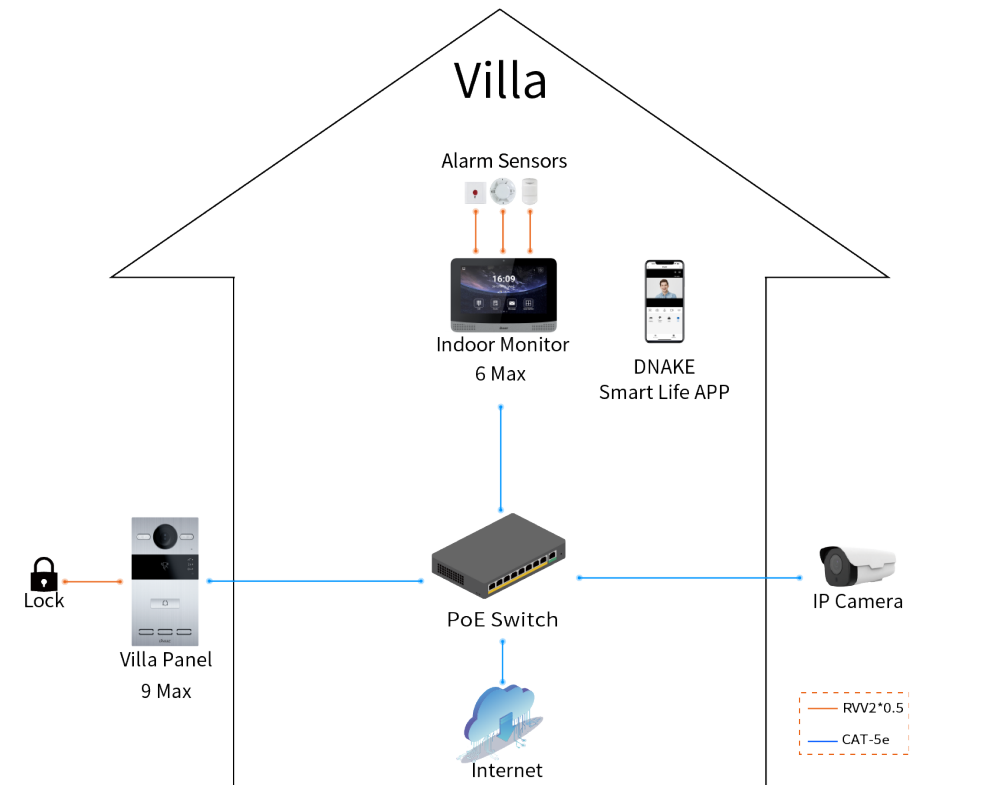

DNAKE Smart Life Intercom Solution

1. Highlight Features:

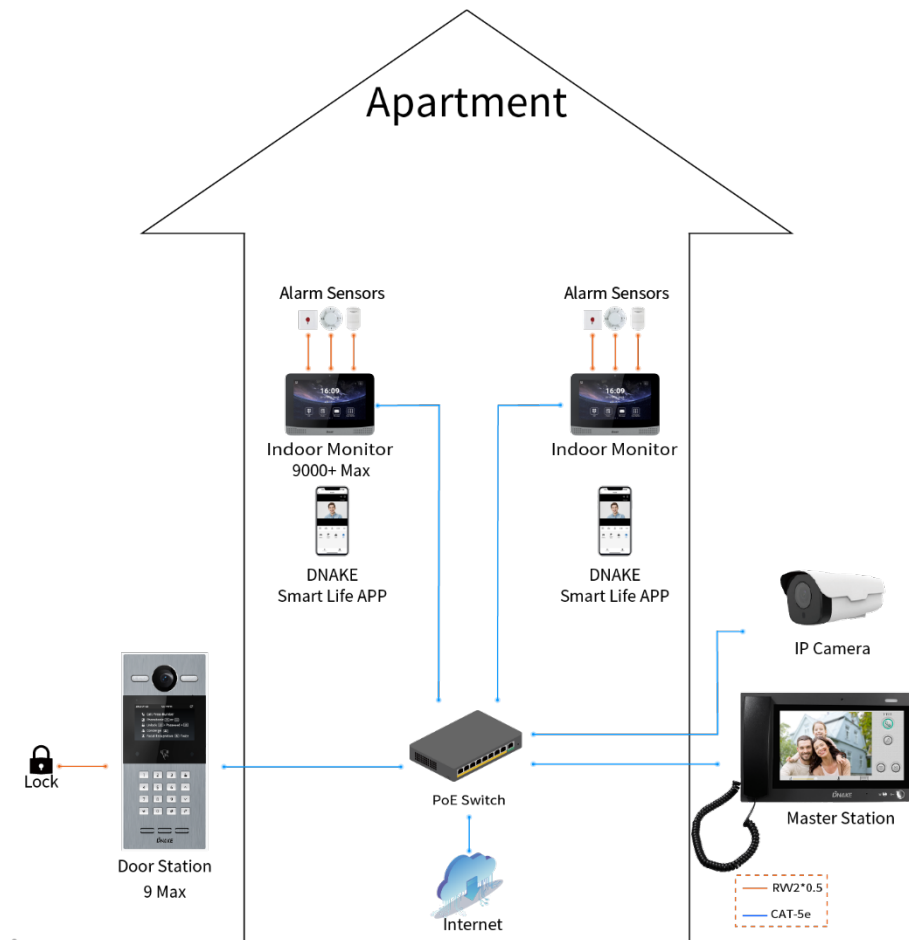

- **Preview:** Preview the video on DNAKE Smart Life app to identify the visitor when receiving the call. In the case of an unwelcome visitor, you can ignore the call.
- **Video Calling:** Communication is made simple. The system provides convenient and efficient intercommunication between the door station and mobile devices.
- **Remote Door Unlocking:** When the indoor monitor receives a call, the call will be also sent to the app on your mobile phone. If the visitor is welcome, you can press a button on the app to remotely open the door anytime and anywhere.
- **Push Notifications:** Even when the app is offline or running in the background, the mobile APP still notifies you of the visitor's arrival and new call message. You'll never miss any visitors.
- **Easy Setup:** Installation and setup are easy and convenient. Scan the QR code to bind the device by using DNAKE Smart Life APP in seconds.
- **Call Logs:** Each call is date-and-time stamped. You can review the call logs at any time right from your smartphone.

2. Topology

- **Villa solution:**

- **Apartment solution:**

3. Recommended DNAKE Products:

Door Station	Indoor Monitor
All DNAKE Brand Door Stations	All Indoor Monitors
